

David Gomes

Full-Stack Developer

thedavidgomes@aol.com • (19) 99990-5214

[LinkedIn](#) • Campinas, BR

Over the past 5 years, I've built a diverse career in technology and innovation. I started as a front-end developer, leveraging HTML, CSS, and JavaScript to create functional and user-friendly websites for small business owners across various markets. Following that, I took on a leadership role as Head of Marketing for a law firm in the Campinas region for nearly 2 years, driving digital strategies and fostering a collaborative, results-oriented team environment. Most recently, I transitioned into the cybersecurity field, working as a Security Analyst and Risk Analyst, where I successfully reduced payment system delays by 13% by mitigating DDoS threats during a critical period.

I thrive on delivering impactful results, maintaining composure under pressure, and contributing to strong, cohesive teams. My aim is to advance as a mid-level professional in either cybersecurity or full-stack development, tackling complex challenges with practical, effective solutions.
